Portfolio: <https://anastasiaradeva.artstation.com>

Passionate and experienced Character Artist with 4+ years in the games industry, specializing in stylized and realistic characters. Proficient in Maya, ZBrush, Substance Painter. Strong understanding of character design, anatomy, rigging, and optimization for real-time engines. Experienced in cross-functional teamwork and iterative development. Currently working on mobile games with Full Fat; seeking to contribute to high-profile stylized or realistic titles.

4 YEARS OF WORK EXPERIENCE

3D Artist

Full Fat, UK, Warwick

09/2023 – Present, Remote

- Specialized in creating low-poly character models optimized for mobile platforms, ensuring a balance between visual quality and performance across a variety of devices.
- Worked closely with the lead artist and 3d art team to align the 3D assets with the project's artistic vision
- Crafted stylized and efficient character models Blender and Substance Painter, focusing on maintaining appealing silhouettes and recognizable features in lower polygon counts.
- Regularly worked within the engine to import models and textures, set up materials and prefabs

Most popular game projects

- **Snake Charmer** (iOS), Role: Character Artist, Environment Artist
 - Modeled, textured, and animated the main character
- **Laundry Mart!** (iOS), Role: 3D Artist
 - Created all 3D models, including 20 types of clothing
- **Vault Crackers** (iOS), Role: Character Upgrade Artist
 - Developed over 20 character upgrades, focusing on clothing
- **Makeup Tiles** (iOS), Role: Character Hair Artist
 - Designed stylized hair types for the existing character models

3D Generalist

Allemo LTD

11/2021 – 06/2023, Remote

- Consistently delivered high-quality hypercasual 3D models at a fast pace, averaging up to 20 models per day.
- Researched and curated visual references to create cohesive and visually appealing game scenes.
- Utilised video references to create animations that added fluidity and realism to character movements, enhancing the player experience.
- Identified and resolved rigging and skinning issues in existing models, ensuring proper deformations and realistic movements.
- Implemented optimisation techniques by baking texturing atlases

Most popular game projects

- **Your Restaurant** Android/iOS, 50k+ downloads
- **Boxing Rush** Android/iOS, 10k+ downloads

KEY SKILLS

- **2D Software:** Photoshop, Illustrator
- **3D Software:** Zbrush, Blender, Maya, RizomUV, Substance Painter, Marmoset Toolbag, Marvelous Designer, 3Ds Max
- **Game Engines:** Unity, Unreal Engine 5
- Git
- Perforce
- Character Modelling
- Rigging
- Animation
- Texturing
- UV-mapping

SPECIALISATION

- Proficient in industry-standard 3D software such as Zbrush, Maya, RizomUV, Substance Painter
- Experienced in character modelling, sculpting, and retopology
- Skilled in creating high-quality textures and materials
- Familiar with creating skeletons for variety character models using Maya and Blender; performing character and object weight controls and painting, ensuring achievement of a realistic character motion
- Knowledge of UV mapping and texture baking techniques
- Strong understanding of anatomy, proportion, and gesture
- Ability to collaborate effectively with team members and meet project deadlines

- **Jelly Shooter** Android/iOS, 10k+ downloads
- **In the Office** Android/iOS, 10k+ downloads

RELEVANT EXPERIENCE

Wargaming Academy 2020-2021

Achieved 2nd place in a competition while creating 3D models for a platformer game during my time at Wargaming Academy.
Demonstrated professionalism and collaboration skills in an agile team setting.
