Portfolio: <https://anastasiaradeva.artstation.com>

Passionate and experienced Character Artist with 4+ years in the game industry, creating stylised and realistic characters for mobile and PC titles. Proficient in Maya, ZBrush, Substance Painter, and experienced with Unreal Engine 5 and Unity. Strong background in anatomy, character design, and optimisation for real-time performance. Collaborative team player with experience in iterative development pipelines. Seeking opportunities to contribute to high-profile stylised or realistic projects.

EXPERIENCE

3D Artist

Full Fat, UK (Remote)

09/2023 – 09/2024,

- Designed and created 3D characters from concept to final in-game assets, maintaining style consistency, visual fidelity, and optimisation for real-time performance.
- Collaborated with the lead artist and 3D team to maintain artistic consistency and meet production milestones.
- Worked closely with programmers to ensure seamless rig and material integration.
- Modeled and textured stylised characters and props in Blender and Substance Painter, achieving clear silhouettes and recognizable features with reduced polycounts.
- Integrated assets directly into Unity, setting up materials and prefabs for rapid iteration.

Selected Projects

- Snake Charmer** (iOS) – Developed a complex, two-part main character with separate rigs for the running character and animated snake, ensuring seamless integration with gameplay; also contributed to environment art.
- Laundry Mart!** (iOS) – Led end-to-end 3D art production, including environment, props, 20+ modular clothing assets across seven colour schemes, and VFX design, enhancing visual appeal and player engagement. Directed artistic decisions to maintain consistent style and optimise assets for mobile performance.
- Vault Crackers** (iOS) – Created 30+ modular character upgrades focused on clothing customisation, meeting design and technical constraints for gameplay integration.
- Makeup Tiles** (iOS) – Designed and modelled seven era-inspired hairstyles with matching jewellery, enabling diverse character customisation while maintaining clear visual identity for each era.

3D Generalist

Allemo LTD (Remote)

11/2021 – 06/2023,

- Delivered 20+ hypercasual models daily, maintaining quality while meeting tight deadlines.
- Produced animations from video references, enhancing realism and player engagement.
- Troubleshoot and corrected rigging and skinning issues on Mixamo-rigged characters, enhancing deformation quality and ensuring seamless integration into engine.
- Optimised assets using texture atlases, reducing draw calls and improving performance.

Selected Projects

- Your Restaurant** (Android/iOS) – 50k+ downloads.
- Boxing Rush** (Android/iOS) – 10k+ downloads.
- Jelly Shooter** (Android/iOS) – 10k+ downloads.

3D Artist

Wargaming Academy

09/2020 – 06/2021, Saint Petersburg

- My team and I achieved 2nd place in an internal competition where we developed a 3D platformer game; I was responsible for creating 3D models.

- Collaborated in an agile team environment, demonstrating professionalism and adaptability.

SKILLS & SPECIALISATION

- **3D Software:** ZBrush, Blender, Maya, RizomUV, Substance Painter, Marmoset Toolbag, Marvelous Designer, 3ds Max
- **2D Software:** Photoshop, Illustrator
- **Game Engines:** Unity, Unreal Engine 5
- **Version Control:** Git, Perforce
- **Core Skills:** Character sculpting, retopology, clothing creation & simulation, PBR texturing, UV mapping, rigging, animation, polycount optimisation, strong knowledge of anatomy, proportion.
- **Soft Skills:** Teamwork, art direction, problem-solving, collaboration with design/programming teams, time management.

EDUCATION

- 2017–2021: Applied Math and Computer Science, St. Petersburg University
- 2012–2017: Art School (Sculpting, Painting, Composition)
- **3D Courses:** Stylised Character (Skills Up School, 2023); Movie Man (XYZ School, 2022); 3D Art (Skills Up School, 2019)
