Portfolio: <https://anastasiaradeva.artstation.com>

Pionate and experienced Character Artist with 4+ years in the game industry, creating stylized and realistic characters for mobile and PC titles. Proficient in Maya, ZBrush, Substance Painter, and experienced with Unreal Engine 5 and Unity. Strong background in anatomy, character design, and optimization for real-time performance. Collaborative team player with experience in iterative development pipelines. Seeking opportunities to contribute to high-profile stylized or realistic projects.

EXPERIENCE

3D Artist

Full Fat, UK (Remote)

09/2023 – 09/2024,

- Created low-poly character models optimized for mobile platforms, balancing visual quality and performance across diverse devices.
- Collaborated with the lead artist and 3D team to maintain artistic consistency and meet production milestones.
- Modeled and textured stylized characters in Blender and Substance Painter, achieving clear silhouettes and recognizable features with reduced polycounts.
- Integrated assets directly into Unity, setting up materials and prefabs for rapid iteration.

Selected Projects

- **Snake Charmer** (iOS) – Modeled, textured, and animated the main character; contributed to environment art.
- **Laundry Mart!** (iOS) – Produced all 3D assets, including 20+ clothing items.
- **Vault Crackers** (iOS) – Designed 20+ character upgrades, focusing on clothing customization.
- **Makeup Tiles** (iOS) – Created stylized hairstyles for existing characters.

3D Generalist

Allemo LTD (Remote)

11/2021 – 06/2023,

- Delivered up to 20 hypercasual models daily, maintaining quality while meeting tight deadlines.
- Produced animations from video references, enhancing realism and player engagement.
- Resolved rigging and skinning issues, improving deformation quality for gameplay.
- Optimized assets using texture atlases, reducing draw calls and improving performance.

Selected Projects

- **Your Restaurant** (Android/iOS) – 50k+ downloads.
- **Boxing Rush** (Android/iOS) – 10k+ downloads.
- **Jelly Shooter** (Android/iOS) – 10k+ downloads.

3D Artist

Wargaming Academy

2020 – 2021, Saint Petersburg

- My team and I achieved 2nd place in an internal competition where we developed a 3D platformer game; I was responsible for creating 3D models.
- Collaborated in an agile team environment, demonstrating professionalism and adaptability.

SKILLS & SPECIALISATION

- **3D Software:** ZBrush, Blender, Maya, RizomUV, Substance Painter, Marmoset Toolbag, Marvelous Designer, 3ds Max
- **2D Software:** Photoshop, Illustrator
- **Game Engines:** Unity, Unreal Engine 5

- **Version Control:** Git, Perforce
- **Core Skills:** Character modeling, sculpting, retopology, texturing (PBR & stylized), UV mapping, rigging, animation, optimization
- Strong knowledge of anatomy, proportion, and gesture; experienced in skin weight painting for realistic deformations.

EDUCATION

- 2017–2021: Applied Math and Computer Science, St. Petersburg University
- 2012–2017: Art School (Sculpting, Painting, Composition)
- **3D Courses:** Stylized Character (Skills Up School, 2023); Movie Man (XYZ School, 2022); 3D Art (Skills Up School, 2019)
